

Referrals terms

How to benefit from our referrals program?

Deblock allows its existing customers to refer one or more referrals in order to obtain a reward in the form of a sum of money credited to the sponsor's account.

To refer someone they know, the customer must:

- open the Deblock app and go to the Profile tab;
- copy and send their referral link to potential referrals.

What are the conditions to be met?

The reward for the sponsor is only valid for the first opening of a Deblock account by the referral after using the referral link.

To benefit from this offer, the sponsor must have an account opened with Deblock and this account must not be restricted or in the process of being closed.

A referral will be considered validated and eligible for the reward once the referral has:

- actually opened their account and validated the KYC;
- buy or sell any crypto.

The sponsor can refer up to five people per campaign. Beyond that, no bonus will be paid to the sponsor by Deblock. So, technically, you can invite as many people as you want, as long as it's 5 or less per campaign.

Deblock reserves the right to interrupt the offer upon prior notice on its website deblock.com.

Deblock also reserves the right to permanently ban users from any future referral campaign in the case of abuse (verbal abuse towards any Deblock staff member or campaign abuse). Additionally, if a user is found to be engaging in fraudulent activity, exploiting the referral system, or violating the campaign's terms in any way, Deblock reserves the right to offboard the user and terminate their account at its sole discretion.

The reward must be claimed during the same campaign it is earned or it will be lost.

How much can I earn by referring users?

The amount of the reward may vary for each effective referral that meets the conditions mentioned above.

The amounts and probabilities of receiving each reward level are as follows:

(i) Referral campaigns with Euros rewards

- 90% chance of obtaining 20 Euros;
- 9% chance of obtaining 50 Euros;
- 0.9% chance of obtaining 200 Euros;
- 0.1% chance of obtaining 500 Euros.

(ii) Referral campaigns with crypto rewards

- 98% chance of obtaining 0.1 SOL;
- 1.9% chance of obtaining 0.1 ETH;
- 0.1% chance of obtaining 0.1 BTC.
