

Referrals terms

How to benefit from our referrals program?

Deblock allows its existing customers to refer one or more referrals in order to obtain a reward in the form of a sum of money credited to the sponsor's account.

To refer someone they know, the customer must:

- open the Deblock app and go to the Profile tab;
- copy and send their referral link to potential referrals.

This referral program is valid from October 16, 2025 7pm CET until October 26, 2025 7pm CET.

What are the conditions to be met?

The reward for the sponsor is only valid for the first opening of a Deblock account by the referral after using the referral link.

To benefit from this offer, the sponsor must have an account opened with Deblock and this account must not be restricted or in the process of being closed.

A referral will be considered validated and eligible for the reward once the referral has:

- actually opened their account and validated the KYC using a referral link;
- become an active user.

A user is considered active if they perform at least one of the following action for 3 days during the period of validity of the current referral program:

- buy or sell any crypto for an amount of at least 100 Euros per transaction (transactions below 100 Euros are not eligible, even if their cumulative value exceeds 100 Euros); or
- make a payment of at least 5 Euros using their physical or virtual Deblock card (only genuine payments are taken into account hence excluding topping up other accounts, payments to gambling or crypto companies, gift cards, cash withdrawal, currency exchange services and money transfers).

Also, the account activation process needs to be completed without interruptions and the Deblock app must be installed on the customer's phone, for the first time, using the referral link.

The number of people the sponsor can refer can be found in the app. Beyond that, no bonus will be paid to the sponsor by Deblock. The number of referrals left can be found in the Referrals section of the App.

Deblock reserves the right to interrupt the offer upon prior notice on its website deblock.com.

Deblock also reserves the right to permanently ban users from any future referral campaign in the case of abuse (verbal abuse towards any Deblock staff member or campaign abuse). Additionally, if a user is found to be engaging in fraudulent activity, exploiting the referral system, or violating the campaign's terms in any way, Deblock reserves the right to offboard the user and terminate their account at its sole discretion.

The reward must be claimed during the same campaign it is earned or it will be lost.

How much can I earn by referring users?

The amount of the reward is fixed at 70 Euros for each effective referral that meets the conditions mentioned above.
